

LAX & LANDSIDE DEVELOPMENT MOVING LOS ANGELES FORWARD

As the fourth-busiest airport in the world and second busiest in the U.S., LAX is now underway with a series of well planned improvements to accommodate growing passenger populations through significant modernization and enhanced connectivity. As a series of strategically intertwined projects totaling \$14-billion that will redefine the travel experience, these projects are major extensions of the existing facilities designed to provide minimal disruption to the surrounding communities.

With an event keynote by 11th District Councilmember, Mike Bonin.
