Housing

### EVENT DESCRIPTION

Join the Los Angeles Headquarters Association (LAHQ) for a fresh discussion on the implementation strategies of new laws and regulations aimed at boosting housing production in Los Angeles.

AB2011, SB35, SB6, RHNA enforcement, and Mayor Karen Bass' recent reforms are all promising starts.

But how much overlap exists between these policies? What nuances should owners be aware of? And how can the CRE industry best take advantage to maximize density? We're all ready for that conversation and we hope you'll join us!
